

## ATTACHMENT FOR SMALL SKID STEER LOADER

### ABSTRACT OF THE DISCLOSURE

5           A loader has lift arms that are used for  
mounting a number of different attachments. The  
attachments can be mounted to the rear of the forward  
end of the lift arms in order to move the center of  
gravity of the attachment more directly over the  
10 loader frame. Various types of attachments can be  
used, as shown, and can be controlled to be pivoted  
for dumping or loading, and can be raised and lowered  
on the lift arms.
